Malta (EU) Citizenship for Exceptional Services by Direct Investment

A sparkling jewel, set in the heart of the Mediterranean, the island nation of Malta is consistently ranked as one of the world's top countries to live in terms of political freedom, climate, education, community and quality of life.

Malta has also enjoyed strong economic growth, with rising property prices and a boom in the traditionally service-based economy with the development of the islands as a centre for international trade and finance. Supported by EU-membership, a highly-respected regulatory environment, a beneficial tax regime, a stable banking system and a highly educated and English-speaking workforce – Malta is consistently seen as one of the best global locations from which to do business.

Boasting an average of 300 days of sun per year, with a rich tapestry of history and culture to explore, along with some of the finest beaches, bars, restaurants, clubs and scuba diving locations in the central Mediterranean – then we have seen the popularity of Malta explode as a destination for those seeking a stable and secure base for sound generational planning.

The Government of Malta, through the Citizenship through Investment Programme allows for the grant of citizenship by a certificate of naturalisation to foreign individuals and their families who contribute to the economic development of Malta.

The Maltese Citizenship Programme is a distinguished pathway to acquiring citizenship by naturalization in Malta. This exclusive programme offers individuals and their families a unique opportunity to obtain Maltese citizenship through a well-defined and rigorous process. Allow us to guide you through the essential components of this exceptional programme.

The Maltese Citizenship Programme grants individuals the esteemed status of citizenship by naturalization. To be eligible for this privilege, the principal applicant and all adult dependants must fulfill the requirement of holding Maltese residency status for a minimum of 36 months. However, it is worth noting that there exists an exception where residency status for a minimum of 12 months may be considered under specific circumstances.

To contribute to the economic and social development of Malta, applicants are required to make specific financial commitments. The contribution amounts vary depending on the duration of residency:

- ☑ **Principal applicant (36 months residency):** €600,000
- ☑ **Principal applicant (12 months residency):** €750,000
- ☑ **Contribution for dependants:** €50,000 (exact source not found, subject to verification)
- ☑ **Residence Requirement:** Applicants must fulfill the residency requirement by holding Maltese residency status for the specified duration.
- ☑ **Property Requirement:** As part of the programme, applicants are required to meet specific property criteria. This includes either:
 - ☑ **Property Purchase:** €700,000
 - ☑ **Property Rental:** Minimum annual rental of €16,000

Once the property is acquired, it must be retained for a minimum of five years from the date of issuing the citizenship certificate.

In addition to the financial contributions and property criteria, applicants are also required to make a donation of €10,000 to a registered philanthropic, cultural, sports, scientific, animal welfare, or artistic non-governmental organization or society. This donation should be made before the certificate of naturalization is issued, or as otherwise approved by the Agency.

Upon fulfilling the necessary requirements and submitting the payment request voucher settlement, the applicant receives a Letter of Approval for eligibility. The issuance of this letter typically takes between 120 and 150 calendar days.

Following the issuance of the Letter of Principle Approval, the principal applicant is instructed to remit the contribution within 25 days. Payment must be received within twenty days of such instruction. Once the payment is received, the Authorities notify the Minister to issue a certificate of naturalization. It is important to note that the contribution made is non-refundable.
